### Instructions for use

This test report serves to verify compliance with the requirements for hinges as per EN 1935 : 2002.

This test report does **not** replace the EC Certificate of Conformity.

Observe the provisions of EN 1935 : 2002 for marking and evaluation of conformity of construction products..

### Validity

The data and results refer solely to the tested and described specimen. Classification remains valid as long as the product and the above basis remain unchanged. The results can be extrapolated under the manufacturer's own liability subject to observance of the relevant specifications set out by the applicable product standard. This test/evaluation does not allow any statement to be made on any further characteristics regarding performance and quality of the construction presented; in particular the effects of weathering and ageing were not taken into account..
